

Please check this design carefully against your current system parameters.

WARNING: The basis for our solution designs are the relationships between the following parameters and the proposed cameras' capabilities. If any of the solution design parameters change from what was initially considered (list not exhaustive), we might need to use additional or different reader types and accessories (lenses, lights etc.) which may not be immediately available and require repeat visits for installation or commissioning **resulting in extra cost.**

- Conveyor
 - Conveyable width
 - Justification
 - Height
 - Speed
- Package
 - Min/Max size
 - Type
 - Gap
- Barcode specification
 - Symbology
 - Location
 - Orientation
 - MIL Size
- Clearances
 - Internal (under belt, rail positions, cable trays, gearboxes, e-stops, pillars, etc.)
 - External (left, right, above, directional of travel)
- Frame Mounting
 - Conveyor, mezzanine, floor, platform, etc.
