

In-Sight Spreadsheet Job Converter
Version: 24.1.0

Overview:

The In-Sight Spreadsheet Job Converter is a tool to convert In-Sight (ISE) 4.x – 6.x .job files to In-Sight (ISVS) 24.1.0 .jobx files. The converter only supports spreadsheet jobs. The converter can be started by double-clicking the .exe file attached in this file. Find instructions for using the converter on the next page.

Disclaimer:

This tool does not guarantee a perfect conversion for all jobs. There are some functions that will not convert or convert poorly. Please verify that your converted job works as expected before deployment.

How to use the converter:

- 1. Upload files and press convert.

- 2. Read the conversion feedback and verify your job in ISVS.
