

The new polarizer and diffuser accessory are attached to the In-Sight 7000 lens cover. They are secured in place with small hex screws (hex tool included with accessory). Upon removal of the accessory – you may notice scratches on the lens cover however this is a cosmetic issue and does not affect the IP67 rating.

The diffuser and external polarizer piece are wider than the In-Sight 7000 cover by 2mm.

The body of the In-Sight 7000 is 55mm wide; the diffuser/polarizer is 57mm in diameter.
